Gentlemen:

In the past, you have provided electrical transcriptions of your Sunday evening program "Yale Interprets the News" to be re-broadcast over WYBC on Wednesday evenings at 7:00.

As we have now resumed broadcasting for this year, I am hoping that you will again be able to send these programs to us. In addition, may I compliment Mr. Mullens and WTIC for producing a program that enables persons outside the University to hear the views presented by members of the faculty. Also, it is one of the few means open to members of the "Yale family" to hear interpretations of the headlines by informed men, some of whom many of us would otherwise never hear.

Thanking you for your consideration, I am

Cordially yours,

The Yale Broadcasting Co.
